

Laura Klaehn, CFP, CLU, CDFA, CHS, TEP

President, Vision Financial Partners Inc.

Laura has been in the financial planning industry for 30 years and founded Vision Financial Partners over 20 years ago when she saw the need for a boutique firm that specializes in advanced strategy work.

Her mission has always been to work in partnership so she can focus on problem solving instead of prospecting. Her background in math, product and strategy development is sought after by leading financial advisors across Canada.

Her business is built on integrity. Her core belief is that, at the end of the day, “the truth” (the numbers) is all clients need to make an informed decision.

She enjoys working on complex cases to bring forward honest and strong advice to discerning high net worth clients across Canada.

When not running the numbers or consulting with clients, Laura loves travelling, running, going to the cottage, and hanging with friends.

Laura currently serves on the board of directors as Secretary-Treasurer for the Conference for Advanced Life Underwriting (CALU).
